Security Kit — the seven layers, as code

@lacspace/lock

Account lockout

v1.0.3 · zero dependencies · isomorphic · generated 2026-08-25

Overview

Server-side brute-force protection: track failed attempts per user/IP, lock after N strikes with exponential backoff, auto-expire the window, reset on success. Pluggable store (Redis-ready).

Package: @lacspace/lock · v1.0.3

Kit: Security Kit — the seven layers, as code

Runtime: zero dependencies · isomorphic

Install

```
npm i @lacspace/lock
```

Quick example

```
(await guard.check(ip)).locked
```

Returns: **false**

Tips & warnings

TIP

Zero-dependency and isomorphic — safe to import on the server, in the browser, on the edge and in React Native. It tree-shakes, so you only ship what you import.
